Specs:

Carbon fiber scrim for added durability.

Sensi-Touch™ blanks – made from the highest quality multi-modulus pre-pregs – for an extremely lightweight and durable rod.

Superb balance to reduce angler fatigue and increase sensitivity.

Halo-Sanded™ – for a stronger, lighter rod with great sensitivity.

Micro-guides provide increased casting distance and unparalleled accuracy.

Proprietary .7 mm Artus high gauge 316ss ring lock guides with hyper-lite braid proof inserts.

Double foot elevated stripper guide that adds strength and has a smoother transition for added castability.

More line-to-guide contact for enhanced sensitivity.

Proprietary new industry changing double flanged tip.

Comfort grip Fuji reel seats with triple grade A cork grips for both casting and spinning.

Cut proof EVA butt eliminates cracking and breakage
