

X4 Rail-Mounted Remote™

Installation and User Guide

1. Loosen the rail fastener with a T15 Torx Tool (provided) or flathead screwdriver.
2. Place the X4 Rail-Mounted Remote™ on your weapon rail and ensure the cable will reach your X4 device.
3. Tighten the rail fastener to ¼ turn past hand-tight.
4. Plug-in the I/O Connector to the I/O Accessory Port on your X4 Device.
5. X4-FCS™ only: If your X4-FCS has an aluminum I/O port cover as shown, it is recommended to tie it down or remove it prior to weapon fire:

**MAZTECH
INDUSTRIES**

FCC Compliance: This device has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: (a) Reorient or relocate the receiving antenna, (b) increase the separation between the equipment and receiver, (c) connect the equipment into an outlet on a circuit different from that to which the receiver is connected, (d) consult the dealer or an experienced radio/TV technician for help.
