INCLUDED

- ✚ Pressure Pad and Mount

Designed to work when mounting a **Sightmark P4 Triple Duty Tactical Flashlight** to a weapon, the **Sightmark Pressure Pad and Mount** is a must have accessory that saves battery life and increases convenience for any shooter. Simply attach the pressure pad to the end of the P4 Flashlight, and run the chord along the rail of the mounted weapon. The shooter can then keep his or her hands on the trigger and simply squeeze the pressure pad to activate the flashlight.

The Sightmark Pressure Pad is a vital accessory for any P4 Flashlight user and reduces spending money on pricey C123A batteries. The Sightmark Pressure Pad and Mount is protected by the Sightmark Limited Lifetime Warranty and the quality that comes with the Sightmark name. Sightmark-Make Your Mark!
