SURVIVOR-1

SURVIVOR-1

The Ballistipax Survivor-1 concealed tactical backpack is designed, constructed, and patented to provide consistently reliable, rapid, single-handed, ambidextrous, deployment of a concealed chest plate carrier while also incorporating concealed ballistic armor to protect the user's back.

- 🛡️ PATENTED SINGLE-HANDED DEPLOYMENT
- 🛡️ DESIGNED WITH ARMED PROFESSIONALS IN MIND
- 🛡️ CUSTOMIZE WITH ANY NIJ BODY ARMOR
- 🛡️ EXPANDABLE FUNCTIONALITY WITH INTEGRATED MOLLE SYSTEM

Survivor-1 is the only product of its kind in the world meticulously designed to meet the diverse needs of the armed professional community while also offering discrete ballistic protection for civilians.

- MOLLE on front plate carrier allowing for multiple user-defined configurations
- Ballistipax's outstanding product warranty
- Purpose built accessories.

CONFIGURATION

UPARMOR CAPABILITIES

Survivor-1 can be configured for purely defensive and---even more importantly --- offensive configurations based on the needs of the user. Survivor-1 is designed and constructed to the highest military specification standards to meet the demands of the armed professional. The plate carrier "plug and play" design allows the user to easily interchange "mission specific" plate carriers (e.g. off-duty and on-duty configurations) and quickly and easily transition between them.
