

SKULL LOCK HEAD MOUNT - LITE

NVG SOFT HEAD HARNESS

PRODUCT ILLUSTRATED
IN BLACK (-B)

PRODUCT OVERVIEW

The Wilcox line of Head Mounts offers the versatility of a helmet mounting solution without the added weight of a ballistic helmet. The Wilcox Skull Lock™ Head Mount-Lite is lightweight, lo-profile, and lo-vis comprised primarily of fabric, lending comfort and versatility to usage and storage. A padded velcro cap design allows attachment of patches and strobes and also utilizes a removable battery pouch that stores a battery pack or counterweight system for NVG weight distribution. The CAM-FIT™ retention system utilizes Cam Lock sliders for one-handed adjustment and is completely adjustable for a secure fit with the turn of the Boa® dial. When not in use, the system can easily be folded and placed into a cargo pocket or pack.

MOUNT COMPATIBILITY

-Compatible with the full line of Wilcox L4 series NVG mounts

**AERONOX, DPAM and GSGM mounts require interface plate adapter sold separately.*

SPECIFICATIONS

Weight: 7.3 OZ
Sizing: Small - 7.25" or less / Large- 7.25 or more
